

„The most precious knowledge, is that which you possess, when needed!“ ■ ■ ■ ■

ORIENTiert

German language & culture

■ ■ ■ ■ to be in a competent intercultural position

The company and the trainers:

ORIENTiert offers training to federal and state agencies, educational institutions, nonprofit organizations, private corporations and the Military. We are able to design and implement workshops and seminars in a variety of areas. We can also provide one-on-one consulting services with your organization to tailor a program that meets your specific needs and objectives.

ORIENTiert trainers have extensive experience in various fields of various Cultures and in depth knowledge of the German Culture . They combine their own firsthand experience of living and working in different cultures along with their extensive personal knowledge of the German culture into a series of comprehensive workshops and classes to help educate individuals about Cultural Awareness and Cultural Sensitivity. Understanding the german culture will allow you to improve business relations and to gain a competitive advantage.

The programme:

- Living and working in Germany
- Cross-Cultural competence training for the German region
- Consulting and escorting your exhibition stand at german exhibitions
- German language course
- Technical translation and interpreting

The method:

The didactic foundation of our training concept lies in the active combination of knowledge (cognitive level), sensitivity (affective level) and action competence (behavioural level). The participants are prepared lastingly for intercultural challenges by:

- conveying basic academic information
- fostering comprehension of emotional reactive patterns
- applying practical exercises of real-life situations
